VX4000HS Film Scanner with
Automatic Roll Feeds

Loading Cut Sheet Film in the VX4000HS Scanner
(The Only Vertical Loading Scanner on the Market)

“... Based on the great response in both time and product quality we have received from you, we are pleased to make your firm our primary source.”

- Michael Huffstutler
President/Owner
Fairchild Photomaps USA

SCANNING SERVICES

Using the VX4000HS Scanner we are able to provide superior photogrammetric quality scans at *very affordable* prices.

Every scan is *visually inspected* for lint, color balance, and orientation.

All scans are *archived* on removable media and stored *permanently* for your convenience.

We realize that your projects are time critical and we will work with your schedule to provide the *best on-time* service in the industry.

PRINTING SERVICES

- Photo quality prints using the HP Designjet 3500CP
- Print sizes up to 50" wide by 100' long
- Wide variety of media available to better suit your needs
- Pre-processing options available to make your presentation perfect
